Re: Elite Senior Services / Mimi Medinger

To whom it may concern:

I have had the pleasure of working with Mimi and her company both professionally and personally and have been extremely pleased with her services in all instances.

As the office manager of a single doctor office which specializes in geriatric patients, her services have been invaluable to me. Each patient we have asked her to assist has been well taken care of and very pleased with the results she obtained as well as the personal attention she gave them.

On a personal note I used Mimi's service to assist me in finding an assisted living facility for my own mother. She was very knowledgeable, kind and attentive thru the entire process, visiting my mother on multiple occasions in the hospital and helping ease her thru the transition from independent living to a small group home. She has continued to follow up and be available for my mother and family since the placement.

I would highly recommend her service to anyone.

Sincerely,

Stephen Cloar
